

Coretrack to provide services to Apache

Thursday, 23 October 2008

PERTH-based drilling technology specialist Coretrack has signed a master services agreement to supply Apache Energy with tools and services.

Coretrack said it has also entered into a specific agreement to provide Apache with its CRL and associated services on commercial terms for the Reindeer-2 well in the North West Shelf of Western Australia.

According to the company, work on Reindeer-2 is expected to start before the end of the month.

Managing director and chief executive officer Nanne van't Riet said the company looked forward to building a strong, ongoing working relationship with Apache.
