UPDATE: CORETRACK'S CLRS MOBILISED WITH HALLIBURTON/WOODSIDE

ANNOUNCEMENT

30 JULY 2010

As an update to Coretrack Limited's ("Coretrack" or "the Company") announcement on 16 July 2010, regarding its Core Level Recorder System ("CLRS") being mobilised with Woodside/Halliburton, Coretrack informs the market that it is still waiting on confirmation from the operators of Larsen Deep-1 as to whether coring will proceed.

The Company will make a further announcement as soon as more information becomes available.

[Coretrack Limited](#) is an ASX listed company that provides technical solutions to the energy industry in the form of down hole tools, products and services.

Since the company's conception, Coretrack has focused primarily on building its highly anticipated integrated core tracking tool, the Core Level Recorder System (CLRS), and introducing the tool into the commercial market. The company has accelerated its operations and growth plan by acquiring one of Australia's leading drill rig manufacturing/drilling services companies, [Globe Drill Pty Ltd.](#)

The Globe Drill acquisition has brought together two world class companies, both at the forefront of producing superior products and services for the global energy sector.
